

50th sehsüchte

student film festival [21-25 april 2021]

Call for Entries

Potsdam, 16.11.2020

Sehsüchte invites you to stretch your legs and minds, get out of your comfortable cinema chair, and create other dimensions for our new media EXHIBITION: BEYOND THE FRAME.

For our Exhibition: Beyond the Frame we are looking for innovative projects using modern technologies in a creative manner both online and offline. These could involve for example XR, artificial intelligence, projection mapping, sensor-based systems, audiovisual performances, web-based experiences. The exhibition strives to present novel forms of storytelling and digital media art.

The selected projects will be presented during the festival in our analog-digital hybrid Exhibition Space. Artists of a best-of selection will be invited to give an informal talk about the exhibited work. A submission must therefore also state whether at least one collaborator can be available during the festival.

Organising a future exhibition has many uncertain aspects, as we are living in strange times. We work on making our exhibition as safe as possible.

In your application please indicate:

- Can your artwork be presented online? How?
- Can your artwork be presented offline? How?
- How corona proof your exhibition piece is?

We might provide grants for travelling expenses. As we are not sure what regulations governments will be holding in April, some aspects of the organisation are also uncertain for us. Therefore, we can not make sure if the opportunity for traveling (internationally and within Germany) can be provided.
